Capabilities

Outdoor Organics is a Service-Disabled Veteran-Owned small business based in Central Pennsylvania specializing in mechanized land clearing and vegetation management. We provide safe, efficient "ground-to-sky" vegetation solutions for rights-of-way, access roads, utility and pipeline easements, rural properties, and public lands. Core services include forestry mulching, brush and tree-line clearing, field and forest reclamation, gravel access road and pad construction, drainage and culvert improvements, erosion control, and soil-conscious turf and land restoration.

Differentiators

- SBA-certified Service-Disabled Veteran-Owned Small Business (SDVOSB)
- Central Pennsylvania-based with regional support for PA, MD, and VA
- Mechanized "ground-to-sky" vegetation management fleet
- Soil-conscious, low-impact methods that minimize disturbance and improve stability
- Proven performance on access, drainage, and restoration projects
- Flexible small-team deployment with direct owner involvement on every project

Core Competencies

Outdoor Organics delivers integrated vegetation management and land services that clear, stabilize, and restore sites while minimizing environmental impact. Our comprehensive service offerings include:

- Forestry mulching, brush clearing, and invasive vegetation control
- Right-of-way and perimeter vegetation maintenance
- Field & forest reclamation and access creation
- Gravel access road, lane, and equipment pad construction
- Culvert replacement, drainage improvements, and water management
- Finish grading, seeding, and hydroseeding for restoration and erosion control
- Organic/low-input turf and land care solutions where appropriate
- Storm and disaster-response debris clearing and access restoration

Past Performance

Borough of Juniata Terrace – Post-Timber Land Cleanup (PA)

Land cleanup including timber debris collection and staging with CTL, tractor, and excavator; forestry mulching of staged material; subsurface stump grinding with excavator-mounted grinder; and up to ½ acre of grading, soil prep, seeding, and straw mulch to restore access and appearance.

G Peck Company Inc – Commercial Vegetation Clearing (Milton, PA)

Precision forestry mulching and vegetation clearing on ~2.2 acres of commercial property, including light clearing around parking-lot perimeter, heavy mulching at the rear of the site, and steep bank clearing with an excavator mulching head to improve visibility, access, and slope maintenance.

Goose Creek Farms Road Committee – Roadway & Drainage Improvements (VA)

Multiple mobilizations over several years providing private road maintenance: grading and reshaping gravel roads, gravel delivery, spreading and compaction, large culvert replacement, custom concrete basin ordering and installation, and 200+ yards of ditching with tied-in piping to improve drainage and reduce washouts.
